2004 Catalog of Publications Member Prices

IMS INDIVIDUAL MEMBERSHIP DUES & JOURNAL SUBSCRIPTION PRICES

The IMS Council approved 2004 individual membership dues at its meetings in August 2003. These dues and prices are printed on your 2004 dues notice.

	Regular	Joint	Reduced Country/ Retired	Student	New Graduate		Life	Retired Life
					1 st yr	2 nd yr		
<i>Basic Membership (w/Bulletin)</i>	\$75	\$80	\$30	\$0	\$25	\$50	\$900	\$240
<i>The Annals of Statistics</i>	\$30	\$30	\$12	\$12	\$30	\$30	\$360	\$96
<i>The Annals of Probability</i>	\$25	\$25	\$10	\$10	\$25	\$25	\$300	\$80
<i>The Annals of Applied Probability</i>	\$20	\$20	\$ 8	\$ 8	\$20	\$20	\$240	\$64
<i>Statistical Science</i>	\$15	\$15	\$ 6	\$ 6	\$15	\$15	\$180	\$48
JOINT PUBLICATIONS	Regular	Joint	Reduced Country/ Retired	Student	New Graduate 1 st yr 2 nd yr		Life	Retired Life
<i>Journal of Computational and Graphical Statistics</i>	\$55	\$55	\$55	\$10	\$55	\$55	\$55	\$55

Joint membership is available to two individuals living at the same address. All benefits of membership are available to each, except that only one copy of the Bulletin and selected journal(s) is(are) provided.

Student membership is available to (i) full-time students.

Reduced membership dues are available to (ii) retired individuals who are IMS members of 10+ years, and (iii) permanent residents of countries designated by the IMS Council.

New Graduates are those who have graduated (any level, undergraduate through doctorate) (iv) in the last 2 years.

Life membership & subscriptions are available to any IMS member at the rates indicated (v).

(i) Full-time students are not charged membership dues and may select one free IMS journal. Additional journal subscriptions may be purchased at the student subscription price. Evidence of full-time student status must be provided each year when membership dues are paid. Student memberships are ordinarily available for a maximum of four years. If you are still eligible for student membership, please provide the usual letter from your thesis advisor, department chair, or appropriate university official certifying your full-time student status.

(ii) Reduced membership dues are available to individuals who have been IMS members for the preceding ten years and are retired from gainful employment. Retired members may elect to receive the *Bulletin* only for basic membership dues of \$26.

(iii) Permanent residents of countries designated by the IMS Council may pay reduced membership dues. An updated list of countries in which reduced IMS individual membership dues may be paid is published in the *Bulletin* (Vol 30, No.4).

(iv) The first year out of school New Graduates dues will be \$25 and the second year dues will be \$50. The third year, the New Graduate will become a Regular Individual Member.

(v) Life members are not required to elect a journal. Retired Life members must be 65 year of age or older.

HOW TO ORDER IMS PUBLICATIONS

Order all items in this *Catalog* prepaid from the Institute of Mathematical Statistics, Dues & Subscriptions Office, 9650 Rockville Pike, Bethesda, MD 20814-3998 (USA)

The Institute now accepts VISA/MasterCard/American Express/Discover card payments for membership, subscriptions and purchases of its other publications. Provide the following information to use your VISA/MasterCard/American Express/Discover card to purchase IMS publications: account number (including 3-digit CVV code), expiration date, name as it appears on card, daytime telephone, and authorized signature.

Checks or Money Orders must be drawn on a **US Bank in U.S. Funds**. Make checks payable to: IMS or Institute of Mathematical Statistics. Your payment must accompany your order. Do **not** send cash, postal coupons, stamps or Purchase Orders. Prices include surface mail postage. The price does not include any border clearance fees or duty. Airmail postage is available at customer's expense (**\$80.00**).

IMS LECTURE NOTES--MONOGRAPH SERIES

Volume 1 - <i>Essays on the Prediction Process</i> by Frank B. Knight (ISBN 0-94-0600-00-5).....	\$ 9
Four essays on various aspects of continuous-time random processes present an approach that provides broad unification of concepts and wide Applicability of results.	
Volume 2 - <i>Survival Analysis</i> by John Crowley & Richard A. Johnson (ISBN 0-94-0600-02-1).....	\$15
Proceedings of the Special Topics Meeting sponsored by the Institute, held in Columbus, Ohio, October 1981. This was an interdisciplinary conference of researchers interested in the analysis of life length from both reliability and biomedical points of view.	
Volume 3 - <i>Empirical Processes</i> by Peter Gaenssler (ISBN 0-94-0600-03-X)	\$12
This monograph presents a thorough and detailed description of the topics in the area of empirical processes. Several portions of the material are new and high-quality research that should be of interest to researchers and graduate students in probability, statistics, and mathematics.	
Volume 4 - <i>Zonal Polynomials</i> by Akimichi Takemura (ISBN 0-94-0600-05-6).....	\$ 9
This simplified and self-contained development of zonal polynomials uses only the standard tools of multivariate normal distribution theory and Linear algebra. Zonal polynomials are widely used in evaluating the power of statistical tests in the field of multivariate analysis.	
Volume 5 - <i>Inequalities in Statistics and Probability</i> by Y.L. Tong (ISBN 0-94-0600-04-8).....	\$15
Proceedings of the Symposium on Inequalities in Statistics and Probability, held in Lincoln, Nebraska, October 1982. This volume contains 30 research and expository papers, some of them concentrating on models in fields of application in which inequalities are of particular value since exact results are not available.	
Volume 6 - <i>The Likelihood Principle</i> by James O. Berger & Robert L. Wolpert (ISBN 0-94-0600-13-7)	\$15
This monograph presents a discussion and generalization of the likelihood principle and examines its implications for statistical inference.	
Volume 7 - <i>Approximate Computation of Expectations</i> by Charles Stein (ISBN 0-94-0600-08-0).....	\$12
This monograph presents an abstract approach to the approximate computation of expectations.	
Volume 8 - <i>Adaptive Statistical Procedures and Related Topics</i> edited by John Van Ryzin (ISBN 0-94-0600-09-9)	\$24
Proceedings of the Symposium on Adaptive Statistical Procedures and Related Topics, held at Brookhaven National Laboratory, June 1985.	
Volume 9 - <i>Fundamentals of Statistical Exponential Families</i> by Lawrence D. Brown (ISBN 0-94-0600-10-2).....	\$15
This monograph presents a systematic treatment of the analytical and probabilistic properties of exponential families.	
Volume 10 - <i>Differential Geometry in Statistical Inference</i> by S.I. Amari, O.E. Barndorff-Nielsen, R.E. Kass, S.L. Lauritzen & C. R. Rao (ISBN 0-94-0600-12-9).....	\$15
The papers collected in this volume present, in a concise yet comprehensive form, several major developments in research on differential geometry in statistics.	
Volume 11 - <i>Group Representations in Probability and Statistics</i> by Persi W. Diaconis (ISBN 0-94-0600-14-5)	\$18
These expanded lecture notes delve into the uses of group theory, particularly non-communicative Fourier analysis, in probability and statistics.	
Volume 12 - <i>An Introduction to Continuity, Extrema, and Related Topics for General Gaussian Processes</i> by Robert J. Adler (ISBN 0-94-0600-17-X)	\$15
This monograph provides a general and abstract introduction to the theory of sample path properties of Gaussian processes based on concepts such as Entropy and majorising measures.	
Volume 13 - <i>Small Sample Asymptotics</i> by Christopher A. Field & Elvezio Ronchetti (ISBN 0-94-0600-18-8)	\$15
This monograph provides coherent development of the ideas and techniques of small sample asymptotics. The authors aim to obtain asymptotic expansions which give accurate results for small sample sizes n , even down to $n=1$.	
Volume 14 - <i>Invariant Measures on Groups and Their Use in Statistics</i> by Robert A. Wijsman (ISBN 0-94-0600-19-6)	\$18
A discussion of distributions in statistical models with groups of invariance transformations.	
Volume 15 - <i>Analytic Statistical Models</i> by Ib M. Skovgaard (ISBN 0-94-0600-20-X).....	\$15
An introduction to analytic statistical models.	
Volume 16 - <i>Topics in Statistical Dependence</i> by H.W. Block, A.R. Sampson, & T.H.Savits (ISBN 0-94-0600-23-4).....	\$27
Proceedings of the Symposium on Dependence in Probability and Statistics, held in Somerset, Pennsylvania, August 1987	
Volume 17 - <i>Current Issues in Statistical Inference: Essays in Honor of D. Basu</i> by M. Ghosh & P.K. Pathak (ISBN 0-94-0600-24-2).....	\$15
A festschrift volume dedicated to D. Basu on the occasion of his 65th birthday. Narrative papers by friends and colleagues review areas of statistics that interested Basu most during his active career.	
Volume 18 - <i>Selected Proceedings of the Sheffield Symposium on Applied Probability</i> by I.V. Basawa & R.L.Taylor (ISBN 0-94-0600-25-0)	\$ 9
Proceedings of the Symposium on Applied Probability, held in Sheffield, August 1989.	
Volume 19 - <i>Stochastic Orders and Decision Under Risk</i> by K. Mosler & M. Scarsini (ISBN 0-94-0600-26-9).....	\$18
A selection of papers presented at the International Workshop on Stochastic Orders and Decision Under Risk, held in Hamburg, May 1989.	
Volume 20 - <i>Spatial Statistics and Imaging</i> edited by A. Possolo (ISBN 0-94-0600-27-7)	\$21
Proceedings of the Joint IMS-ASA-SIAM Summer Research Conference on Spatial Statistics and Imaging, held in Brunswick, Maine, June 1988.	
Volume 21 - <i>Weighted Empiricals and Linear Models</i> by Hira L. Koul (ISBN 0-94-0600-28-5).....	\$18
This monograph explores the usefulness of weighted empirical processes in studying linear regression and autoregression models.	
Volume 22 - <i>Stochastic Inequalities</i> edited by Moshe Shaked and Y.L. Tong (ISBN 0-94-0600-29-3).....	\$24
This volume is a collection of papers based on the lectures given at the joint IMS-ASA-SIAM Summer Research Conference on Stochastic Inequalities, July 1991.	

Volume 23 - <i>Change-point Problems</i> edited by H. G. Mueller and D. Siegmund (ISBN 0-94-0600-34-X).....	\$26
Based on the AMS-IMS-SIAM Summer Research Conference on "Change-point Problems" at Mount Holyoke College, this volume contains 28 papers covering a wide range of change-point problems and theory.	
Volume 24 - <i>Multivariate Analysis and Its Applications</i> edited by T. W. Anderson, K. T. Fang and I. Olkin (ISBN 0-94-0600-35-8).....	\$26
This volume, based on an International Symposium held at Hong Kong Baptist College in 1992, presents work of many major figures in the theory of Multivariate Analysis and Highlights important recent trends in applications.	
Volume 25 - <i>Adaptive Designs</i> edited by Nancy Flournoy and William F. Rosenberger (ISBN 0-94-0600-36-6).....	\$24
This volume contains 20 papers whose topics include two-arm clinical trials, adaptive dose-response designs for quantile estimation and Maximizing survival in the presence of opposing hazard functions, linear models, multinomial models, quality control and group testing.	
Volume 26 - <i>Stochastic Differential Equations in Infinite Dimensional Spaces</i> by G. Kallianpur and J. Xiong (ISBN 0-94-0600-38-2).....	\$24
This volume is an expanded version of the 1993 Barrett Lectures delivered by Professor Gopinath Kallianpur at the University of Tennessee, Knoxville.	
Volume 27 - <i>Analysis of Censored Data</i> edited by H.L. Koul and J. V. Deshpande (ISBN 0-94-0600-39-0).....	\$18
This volume contains papers that discuss the consistency of the posterior distributions under nonparametric setting, efficient estimation under Interval censoring and use of graphic methods in analyzing randomly censored data, from an international Workshop On Analysis of Censored Data that was held in Pune, India.	
Volume 28 - <i>Distributions with Fixed Marginals and Related Topics</i> edited by Ludger Ruschendorf, Berthold Schweizer, and Michael D. Taylor (ISBN 0-94-0600-40-4).....	\$31
These are the proceedings of the conference on "Distributions with Fixed Marginals, Doubly Stochastic Measures, and Markov Operators" held August 15, 1993, at the University of Washington in Seattle under the auspices of the AMS, IMS, and SIAM. This conference was the sequel to an earlier "Symposium on Distributions with Given Marginals (Frechet Classes)" held in Rome in 1990 and organized by the Department of Statistics of the University La Sapienza, Rome, Italy.	
Volume 29 - <i>Bayesian Robustness</i> edited by J.O. Berger, B. Betro, E. Moreno, L.R. Pericchi, F. Ruggeri, G. Salinetti, and L. Wasserman (ISBN 0-94-0600-41-2).....	\$29
This volume contains the Proceedings of the Second International Workshop on Bayesian Robustness held in Rimini, Italy, from May 22-25, 1995. With fourteen invited papers (with discussion) and seven contributed papers, all refereed, this volume spans a variety of topics including the latest theoretical developments, methodology and applications. Among the topics are: hierarchical models, model selection, clinical trials, large sample theory, time series, and speech and audio signal analysis, all treated in the context of robustness.	
Volume 30 - <i>Statistics, Probability and Game Theory</i> Papers in Honor of David Blackwell edited by T.S. Ferguson, L.S. Shapley, and J.B. MacQueen (ISBN 0-94-0600-42-0).....	\$32
This volume has been created to honor Professor David Blackwell of the University of California at Berkeley by his students, colleagues, friends And admirers. Most of the papers of this volume are on topics connected with areas in which Blackwell has played a major role.	
Volume 31 - <i>L1-Statistical Procedures and Related Topics</i> edited by Yadolah Dodge (ISBN 0-94-0600-43-9).....	\$41
This volume contains papers that discuss recent developments in many fields of statistical data analysis using the L1 methods, from an Intl Conference based on the L1 Norm and Related Methods that was held in Neuchatel, Switzerland, from August 11-15, 1997.	
Volume 32 - <i>Selected Proceedings of the Symposium on Estimating Functions</i> edited by I.V. Basawa, V.P. Godambe, and R.L. Taylor (ISBN 0-94-0600-44-7).....	\$42
This volume contains selected papers from the Symposium on Estimating Functions, which was held at the University of Georgia from March 21, 1996 to March 23, 1996.	
Volume 33 - <i>Statistics in Molecular Biology and Genetics</i> edited by F. Seillier-Moiseiwitsch (ISBN 0-94-0600-47-1).....	\$36
This volume contains selected papers presented at the Joint Summer Research Conference in the Mathematical Sciences on this topic held at the University of Washington in Seattle, from June 22 to June 26, 1997, under the auspices of the IMS, AMS, and SIAM.	
Volume 34 - <i>New Developments and Applications in Experimental Design</i> edited by Nancy Flournoy, William F. Rosenberger, and Weng Kee Wong (ISBN 0-94-0600-46-3).....	\$21
This volume contains Selected Proceedings of a 1997 Joint AMS-IMS-SIAM Summer Conference	
Volume 35 - <i>Game Theory, Optimal Stopping, Probability and Statistics</i> edited by F. Thomas Bruss & Lucien Le Cam (ISBN 0-94-0600-48-X) ...	\$39
This volume in honor of Prof. T. S. Ferguson of UCLA consists of papers in game theory, optimal stopping and "decision oriented" probability and statistics. All papers were referred.	
Volume 36 - <i>State of the Art in Probability & Statistics Festschrift for Willem R. van Zwet</i> edited by Mathisca de Gunst, Chris Klaassen & Aad van der Vaart (ISBN 0-94-0600-50-1).....	\$79
The volume contains the proceedings of the symposium that was held on the same occasion, in Leiden, march 23-26, 1999, plus thirteen other papers, giving a total of 33 papers, reflecting Willem's broad interest.	
Volume 37- <i>Selected Proceedings of the Symposium on Inference for Stochastic Processes</i> , Edited by: I.V. Basawa, C. C. Heyde and R. L. Taylor (ISBN 0-940600-51-X) Selected proceedings of a symposium held in May 2000 at the University of Georgia, Athens, Georgia.....	\$29
Volume 38 - <i>Model Selection</i>, P. Lahiri, Editor (ISBN 0-940600-52-8) . This special volume contains four long review papers on model selection. Written by (i) C. R. Rao and Y. Wu; (ii) H. Chipman, E. I. George and R. E. McCulloch; (iii) J. O. Berger and L. R. Pericchi; and (iv) B. Efron.....	\$24
Volume 39 - <i>R. R. Bahadur's Lectures on the Theory of Estimation</i> , S. M. Stigler, W. H. Wong and D. Xu, Editors (ISBN 0-940600-53-6). The ten weeks' lectures began with a review of the geometry of L2 function spaces and covered Bayes estimates, unbiased estimation, Fisher information, Cramer-Rao bounds, and the theory of maximum likelihood estimation.....	\$15

- Volume 40 – *Science and Statistics: A Festschrift for Terry Speed***, Darlene R. Goldstein, Editor. (ISBN 0-94-0600-56-0) \$29
This special volume has been compiled to honor Terry Speed, whose intellectual curiosity and enthusiasm, along with deep and very broad subject matter knowledge and expertise, have been highly influential in the statistical community.
- Volume 41 – *Probability, Statistics and their Applications, Papers in Honor of Rabi Bhattacharya***, Krishna Athreya, Mukul Majumdar, Madan Puri and Edward Waymire, Editors (ISBN 0-94-0600-55-2)..... \$24
This volume honoring Professor Rabi Bhattacharya contains research contributions to a broad range of topics from a distinguished group of probabilists and statisticians.
- Volume 42 – *Mathematical Statistics and Applications***, Festschrift for Constance van Eeden, Marc Moore, Sorana Froda and Christian Leger, eds. (ISBN 940600-57-9) \$32
The 28 papers included in this volume cover a wide range of topics reflecting the broad interests and statistical culture of Constance van Eeden.
- Volume 43 – *Crossing Boundaries: Statistical Essays in Honor of Jack Hall***, John E. Kolasa and David Oakes, Editors. (ISBN 0-940600-58-7) \$35
The manuscripts in this volume represent some of the research presented at *The Symposium in Honor of the 70th Birthday of W. Jackson Hall* held on September 25-26, 1999, at the University of Rochester in Rochester, New York.

NSF-CBMS REGIONAL CONFERENCE SERIES IN PROBABILITY AND STATISTICS

The Institute and the American Statistical Association co-publish this *Series*. Institutional Members pay discounted member prices. Corporate Members may order additional copies at discounted member prices.

- Volume 1 - *Group Invariance Applications in Statistics*** by Morris L Eaton (ISBN 094-0600-15-3)..... \$15
These lecture notes discuss topics in invariance with application in statistics. These lectures were originally presented at the NSF-CBMS Regional Conference held at the University of Michigan, in June 1987.
- Volume 2 - *Empirical Processes: Theory and Applications*** by David Pollard (ISBN 0-94-0600-16-1)..... \$12
These lecture notes present some of the theoretical developments in abstract empirical process theory and illustrate their Application. By example. The lectures were originally presented at the NSF-CBMS Regional Conference held at the University of Iowa, in July 1988.
- Volume 3 - *Stochastic Curve Estimation*** by Murray Rosenblatt (ISBN 0-94-0600-22-6) \$15
These lecture notes are concerned with probability density or regression function estimation when observations are dependent. The lectures were originally presented at the NSF-CBMS Regional Conference held at the University of California, Davis, in June 1989.
- Volume 4 - *Higher Order Asymptotics*** by Jayanta K. Ghosh (ISBN 0-94-0600-31-5) \$15
These lecture notes are concerned with Edgeworth expansions; higher order efficiency, expansion of posterior, probability matching priors and related topics. These lectures were originally presented at the NSF-CBMS Regional Conference held at Chapel Hill, North Carolina, in August 1991.
- Volume 5 - *Mixture Models: Theory, Geometry and Applications*** by Bruce G. Lindsay (ISBN 0-94-0600-32-3)..... \$15
These lecture notes develop a general semi parametric theory for statistical models containing an unknown distribution, with Application in random effects, over dispersion and many more areas. The lectures were originally presented at the NSF-CBMS Regional Conference held at the University of South Carolina, in May 1993.
- Volume 6 – *Statistical Inference from Genetic Data on Pedigrees*** by Elizabeth A. Thompson (ISBN 0-94-0600-49-8)..... \$18
This monograph develops probability models and statistical approaches for analysis of genetic data. The focus is on simple traits But multiple genetic loci, from basic ideas through recent developments in Monte Carlo likelihood estimation.
- Volume 7 – *Generalized Linear Mixed Models*** by Charles E. McCulloch (ISBN 0-94-0600-54-4) \$18
Explores the basic idea of statistical models that incorporate random factors into generalized linear models.

OTHER PUBLICATIONS OF INTEREST TO IMS INDIVIDUAL MEMBERS

Individual members may order any of these items through the Institute. All the information and/or special subscription rates for these publications are for own and not general use. All claims, address changes and cancellations should be made directly to the publisher.

THE AMERICAN STATISTICIAN

By special arrangement between IMS and ASA, *The American Statistician* is being offered to IMS members at preferential prices. They are available directly from the American Statistical Association, 1429 Duke Street, Alexandria, Virginia 22314-3402 (USA). Please identify yourself as an IMS member when ordering these journals from ASA.

- AUSTRALIAN AND NEW ZEALAND JOURNAL OF STATISTICS** (Volume 45) 2003 \$68
Published by Blackwell Publishers. Claims & addresses to 108 Cowley Road, Oxford OX4 1JF, United Kingdom
ptaylor@blackwellpublishers.co.uk
- BERNOULLI** (Volume 9) 2003 \$40
Published by International Statistical Institute in the Netherlands. Claims & address changes to ISI PO Box 950, 2270 AZ Voorburg, The Netherlands isi@cbs.nl
- BIOMETRIKA** (Volume 90) 2003 \$51
Published by Oxford Univ Press. Claims & address changes to thomsonp@oup.co.uk
- CANADIAN JOURNAL OF STATISTICS** (Volume 31) 2003 \$57
Published by Statistical Society of Canada. Claims & address changes to styan@total.net

- PROBABILITY THEORY AND RELATED FIELDS** (Volumes 126-129) 2003-12 Issues \$60
 Published by Springer-Verlag. Claims & address changes to: nienhaus@springer.de
- SCANDINAVIAN JOURNAL OF STATISTICS** (Volume 30) 2003 \$55

- STATISTICA NEERLANDICA** (Netherlands Society for Statistics and Operations Research)(Volume 57) 2003 \$57
 Published by Blackwell Publishers. Claims & address changes to 108 Cowley Road, Oxford OX4 1JF, United Kingdom or
ptaylor@blackwellpublishers.co.uk

INDEXES

Current Index to Statistics Printed Volumes

This annual series provides subject and author indexes to articles on statistical theory, methodology, and applications, and to articles in the field of probability. Includes complete coverage of articles appearing in over ninety journals (including *The Annals of Statistics*, *The Annals of Probability*, *The Annals of Applied Probability*, *Statistical Science*, *Biometrika*, *JASA*, *Technometrics*, etc.) and coverage of statistics and probability articles selected from many other journals.

Volumes 1-26. Indexes to papers published 1975-1999, Price per Volume... **Regular rate** \$35 **Student rate** \$10

CIS Extended Database 2003 Edition (Release 12)

A computer-readable bibliography of the literature of statistics and probability. **NOTE:** The IMS office ONLY handles orders for personal licenses from IMS members that are using the member rate. All other orders, including all institutional (new or renewal) or nonmember personal orders, should be directed to ASA using the ASA order form. <http://www.statindex.org/CIS>

New Member \$90
Member Update \$45

Cumulative Index to IMS Scientific Journals \$15

This index covers *The Annals of Mathematical Statistics*, *The Annals of Statistics*, *The Annals of Probability*, *Statistical Science*, and selected articles from the *IMS Bulletin* from 1960-1989.

The Annals of Mathematical Statistics: Index to Volumes 1-31 \$10

This index, edited by J.A. Greenwood, I. Olkin, and I.R. Savage and prepared by the Institute with the support of the National Science Foundation, is a subject and author index, which also includes citations to subsequent papers.

BACK ISSUES OF IMS JOURNALS

The Institute of Mathematical Statistics sells back issues of all volumes from 1996 forward. Microfilm of issues prior to this can be purchased from UMI (www.umi.com). Please confirm availability before ordering.

	<u>PER ISSUE</u>	<u>PER VOLUME</u>
<i>The Annals of Statistics</i> , Volumes 21-32 (1996-2004).....	\$34.....	\$200 (six issues)
<i>The Annals of Probability</i> , Volumes 24-32 (1996-2004).....	\$44.....	\$175 (four issues)
<i>The Annals of Applied Probability</i> , Volumes 6-14 (1996-2004).....	\$30.....	\$120 (four issues)
<i>Statistical Science</i> , Volumes 11-19 (1996-2004).....	\$25.....	\$100 (four issues)
<i>The IMS Bulletin</i> , Volumes 30-33 (2001-2004).....	\$10.....	\$ 60 (six issues)

Postal regulations require the following disclosure of the allocation of dues for regular members (as determined by an IMS Council resolution): "The scientific journals of the Institute of Mathematical Statistics are *Statistical Science*, *The Annals of Statistics*, *The Annals of Probability*, and *The Annals of Applied Probability*. The *IMS Bulletin* is the news organ of the Institute. Each individual member receives the *Bulletin* and must elect to receive at least one of four scientific journals. Members pay annual dues of \$75. An additional amount is added to the dues of members depending on the scientific journal(s) selected: *Statistical Science* (\$15), *The Annals of Applied Probability* (\$20), *The Annals of Statistics* (\$30), *The Annals of Probability* (\$25). Of the total dues paid, \$29 is allocated to the *Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received."
